

Job Title: Survey Crew Chief

Job Location: Allen, Texas

Requirements:

Experience: Minimum of 2 years' as Survey Party Chief,

Personal Characteristics: Self-Starter, Meticulous Attention of Detail, Friendly & Communicable

Job Description:

White Hawk Engineering & Design, LLC is currently seeking a qualified Survey Crew Chief for immediate employment in our Allen, Texas office. We prefer 2 years of experience, and proficiency in Leica Survey equipment is a plus. White Hawk often performs surveying on Public Works & Transportation Design, Construction, Boundary Surveys, and Land Development Projects. White Hawk is a growing, team oriented company. We provide extensive staff training and have advancement potential.

General Requirements:

1. Understanding the assigned tasks as directed by supervising survey survey staff and completing the assigned tasks as instructed.
2. Capable of supervising survey crew members for survey work requiring correct data collection methods and preparation of field notes, including cut sheets.
3. Responsible for personnel; safety procedures and safety practices.
4. Solid math skills as some computations will be required
5. Experience in GPS, reflectorless and robotic total stations, level and other survey equipment.
6. Experience in boundary-title surveys, topographic-design surveys, control surveys, as-builts, and construction staking.
7. High School Diploma / GED, valid Drivers' License, and ability to pass drug testing and background checks.

Benefits:

3 weeks Paid Time Off

401(k)

Paid Health Insurance
