# J. T. Robinson

## ENVIRONMENTAL DEPARTMENT MANAGER

Jay T. Robinson has joined the Oklahoma team as Environmental Department Manager, heading our environmental service line. Jay has over 19 years of extensive and diverse environmental experience including NEPA compliance and document preparation, restoration, 404 permitting, and biological consulting spanning across six states. He has led the design and construction of numerous stream restoration and habitat enhancement projects. With extensive terrestrial and aquatic knowledge, Jay has managed all aspects of compliance with NEPA and ESA on a multitude of projects. At White Hawk, Jay's biological expertise is utilized in NEPA compliance, agency permitting, biological sampling and analysis, river restoration, wetland and riparian delineation, mapping, design, reporting and project management.

Some of the types of projects he has expertise in are Categorical Exclusions (CEs), Environmental Assessments (EAs), Regulatory Provisions Checklists, and Reconnaissance Studies for linear transportation projects, for both the DOT and Counties in the state of Oklahoma.
